.....

.....

Assignment 25 *Floor Plans*

Record the type of room that you are going to plan, for example a games room or a bedroom.

The type of room that I am going to plan will be a

.....

Use the space provided here to record the size of each grid square (in either centimeters or inches). Then record the dimensions of the room in units.

Each grid square is **by**

The room is **units by** **units**

Use the following space to make a list of the items that are to appear in the floor plan of the room and their dimensions.

The items that are going to go in the room are:

- 1. This item is units by units
- 2. This item is units by units
- 3. This item is units by units
- 4. This item is units by units
- 5. This item is units by units
- 6. This item is units by units
- 7. This item is units by units
- 8. This item is units by units
- 9. This item is units by units
- 10. This item is units by units
- 11. This item is units by units
- 12. This item is units by units
- 13. This item is units by units
- 14. This item is units by units
- 15. This item is units by units

Assignment 26 *Web Site User Interface*

Record some information here about the contents of the two main scenes of the Web site animation.

SCENE 1

.....

.....

.....

SCENE 2

.....

.....

.....

Assignment 27 Password Protection

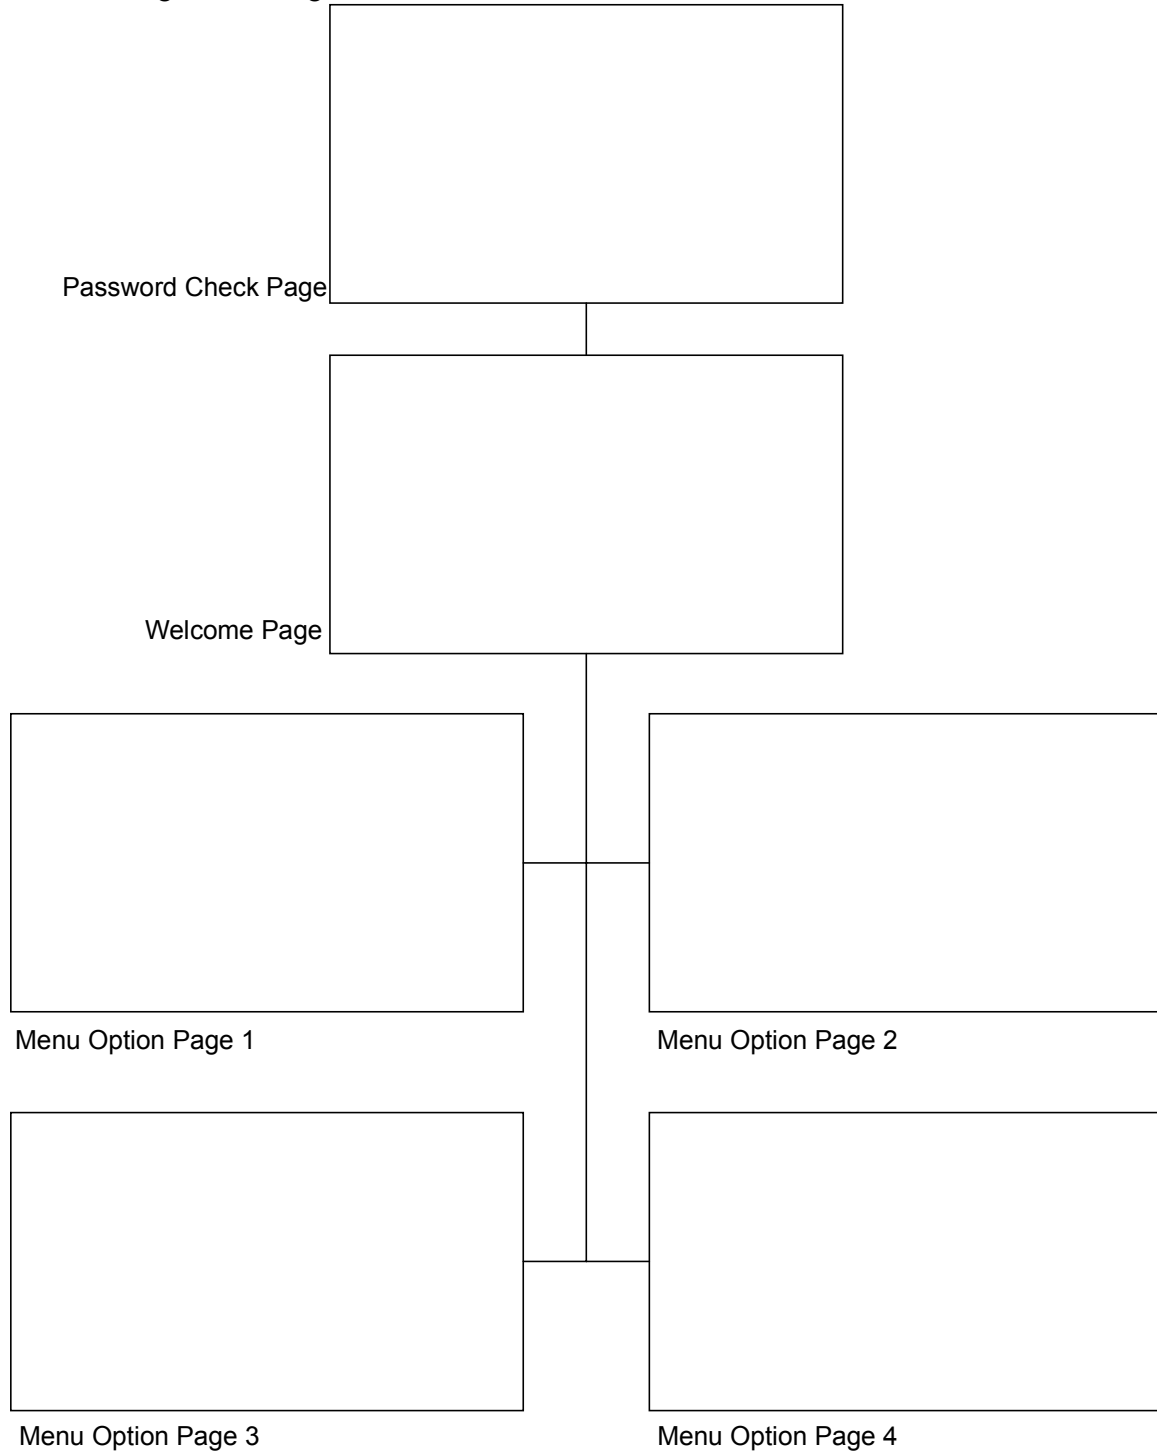

Use the space here to record the correct password that will allow access to the Web site.

The correct password is

Use the blank 'Web site structure' diagram below to record the content and details of each page of your Web site animation as you complete it. Look at the example 'Web site structure' diagram in Assignment 27.

Assignment 28 *Problem Solving: School Logo*

Write the details of three different ideas for the school logo animation. Then write the advantages and disadvantages of each idea.
